Over 500 Students at Shambhunath Institute of Engineering & Technology, take Aspiring Minds’ AMCAT

Allahabad, Sep 19, 2010: As the placement season draws near, students at Shambhunath Institute of Engineering & Technology, Allahabad gear up to get their dream jobs. On 18th and 19th September, over 500 students of the college appeared for AMCAT (Aspiring Minds Computer Adaptive Test), India’s Largest Employability Test, to assess and benchmark their skills in various modules including English Comprehension, Quantitative Ability, Logical Ability, Computer Programming, Electronics and various other B-Tech domain modules.

On the basis of their test scores, students are able to showcase their qualifications to over 50 corporates across the country getting access to a job based on their skills and merit. (people mis understand the term recruiter). Aspiring Minds has helped over 7500 engineers across India get jobs in 2010.

Shambhunath Institute of Engineering and Technology, Allahabad (SIET), is a Premier Institute for Education in Engineering and Management. SIET has developed infrastructure that gives the students the unique opportunity to gain knowledge in a world class atmosphere.

Each assessed student receives AMCAT's Seven-Stroke Employability feedback - a detailed personalized report – that helps students understand their areas of strength and weakness and provides analysis on core skills and improvement areas to secure a good job. The report educates the candidate about the industry and profiles they could get jobs in.

Himanshu Aggarwal, Co-founder and Director, Aspiring Minds said, “AMCAT is getting wide adoption across the country being delivered in over 25 states. Uttar Pradesh is emerging strongly in the education space and with AMCAT we aim to provide job access to talent from this region in companies across the country.”

AMCAT is an intelligent assessment designed to assess both theory and application of the theory rather than only knowledge-based questions. This tests the candidate’s ability to apply the concepts and knowledge to real-world problems rather than assessing knowledge or rote learning.

The test conducted by Aspiring Minds, an assessment technology company, has been developed by alumni from IIT, Delhi and MIT, Boston, USA and works on very high end statistical technology. Multiple IT, ITES, Hospitality, KPO use AMCAT for evaluating candidates for interview and placements.
ABOUT ASPIRING MINDS

Aspiring Minds Assessment Pvt. Ltd. is an assessment technology pioneer in India, a full spectrum of assessments including Language, Aptitude, Skill and Personality assessment. Aspiring Minds’ assessments are based on proprietary algorithms for computer based adaptive, standardized and reliable assessments.
